## **DETAILED ACTION**

1. Claims 1-49 are currently pending in the instant application.

### ***Response to Lack of Unity***

2. Applicant's election of Group I, claims 1-24, drawn to compounds of the formula of claim 1, and their pharmaceutical compositions, in the reply filed on November 14, 2011 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Accordingly, claims 25-49 are currently withdrawn, as directed to non-elected subject matter.

### ***Information Disclosure Statement***

3. Applicants' Information Disclosure Statement (IDS), submitted December 1, 2011, has been considered by the Examiner. Please refer to the signed copy of Applicants' PTO-1449 form, submitted herewith. The Examiner notes that the citation for the NPL reference "22" fails to cite a date of publication, therefore the citation has been struck through. Appropriate correction is requested.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-10, 23 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 3,196,152, to Wright et al. The '152 patent teaches and recites phenyl- and

alkyleneamino-substituted imidazolidinones with pharmaceutical utility, please refer to the compounds depicted in the structure defined in column 1. Said compounds are the same as Applicants' instantly claimed compounds of claim 1, wherein Applicants' instant R<sub>1</sub> is hydrogen; R<sub>2</sub> is hydrogen; R<sub>3</sub> is aryl (phenyl); R<sub>4</sub> is NR<sub>6</sub>R<sub>7</sub> wherein R<sub>6</sub> and R<sub>7</sub> are as defined; and R<sub>5</sub> is oxygen or sulfur.

***Claim Objections***

6. Claims 11-22 are objected to as being dependent on rejected base claims.

***Conclusion***

7. In conclusion, claims 1-49 are pending in the application, and claims 25-49 are currently withdrawn. Claims 1-10, 23 and 24 are rejected, and claims 11-22 are objected to.
